

Made in  
France

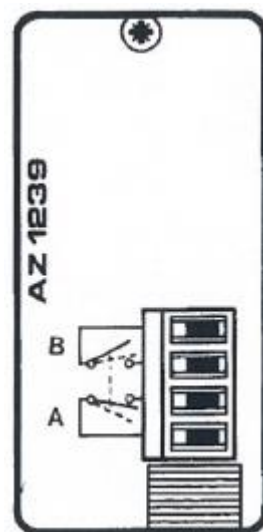

- 🌀 **Priority management**
- 🌀 **First in priority**
- 🌀 **Contact report outputs**
- 🌀 **Quick and easy installation**

The **AZ-1239** is a function module for preamplifiers of the Excellence series ( PR-1106 / PR1406 / PA-1180 ).

It allows to manage priorities of the first 5 inputs relative to each other or in first-in mode. The 6th input has always lowest priority level.

It enables also to report when line is taken by one or several audio inputs through contact.

### Features

<b>Active remote control</b> <i>Terminating resistor</i>	< 1 kΩ ou 0 V
<b>Inactive remote control</b> <i>Terminating resistor</i>	> 4,7 kΩ ou 18 V
<b>Report contacts</b>	I max = 1,25A V max = 125 V
<b>Consumption</b>	45 mA
<b>Dimensions</b>	35 x 205 x 74 mm
<b>Weight</b>	120g

### Applications

Public Address.....

- ▶ Shops
- ▶ Camp sites
- ▶ Education
- ▶ Places of worship
- ▶ Swimming pools
- ▶ Multisports rooms
- ▶ Small supermarkets
- ▶ Urban roads
