

The **GE-4267** is a multi-source module: AM/FM tuner and audio/video player (CD, DVD, USB, SD card, SDHC card). Each source has independent volume adjustment and provides a separate audio signal. The GE4267 also has a priority output which provides a signal associated with operation mode of audio/video player priority over tuner. As it integrates a video player, the GE4267 also provides the relevant video signal (composite video). The video player can be controlled through an infrared remote control. Compact and multi-sources, the GE-4267 can be used in type of public address requesting background music and/or visual broadcasting.

Features			Applications
Audio format		MP3 – WMA – CD	Music
Video format		AVI – JPG – DAT – VOB - MPG	Malls – shopping centres
Power supply	Battery 12 V DC	Mains 230 V AC	Exhibition halls Theatres - Entertainment
Dimensions		427 x 254 x 45 mm	Conference rooms
Color		Black	Sports rooms/Gyms
Material		Metal	Administrative buildings
Weight		3,85 Kg	

<u>Provided with accessories</u>: mains cord- infrared remote control - AM & FM antennas audio RCA/RCA stereo cords - RCA/RCA video cord
