GX-3016-TWIN

Sources
Microphone console

Made in France

- **Up to 2x16 zones**
- **Integrated 3-tone chime**
- **Power supply over Bus**
- **Easy and quick installation**
- **Inconspicuous and multipurpose**

The **GX-3016-TWIN** is a zone-selection paging microphone console : 2x16 zones. As it works on the same bus architecture as GX3016, it enables to control two CC3816 or CS2600 matrixes in parallel while keeping the advantage of bus distribution.

The **GX-3016-TWIN** is therefore easily integrated in a network of GX3016 and GXT4000.

Provided with an electret microphone, 2 x 16 programmable keys, 4 function keys and 1 chime, this console meets all your needs in Public Address.

Either put on a table or flush-mounted, this console can be used in several application types.

Features
