

# RB-2033

## Speakers Suspended enclosure

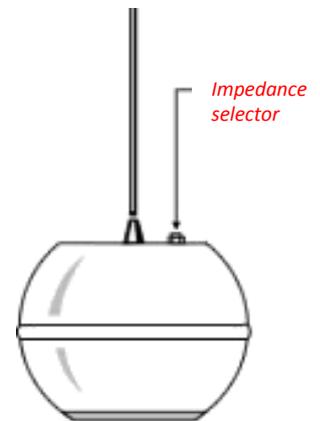

Made in  
France

- Wide coverage
- Superior acoustical quality
- High intelligibility
- Easy and quick installation

The **RB-2033** is a speaker fitted with a 17cm coaxial fiberglass loudspeaker associated with an axially positioned tweeter.

It is particularly tailored for areas with large ceiling heights (superior or equal to 4m). Its body, out of ABS, combined with loudspeaker fiberglass gives it excellent moisture resistance. The Optiself device allows to change the power easily once the item is already installed.
