

EN 54 - 24 Certified

Made in
France

- High intelligibility
- Superior acoustic quality
- Protection IP 55
- Easy installation

The **RB-2035-EN54** is an ABS sound broadcaster fitted with a 17cm loudspeaker with an axially positioned tweeter.

It allows a high quality public address broadcasting while ensuring voice alarm. Its ABS body combined with stainless steel screws and aluminium bracket is particularly suitable for harsh environments and ensures an enduring installation. The Optiself system allows to easily change the power once the item is installed.
