

RC-3020

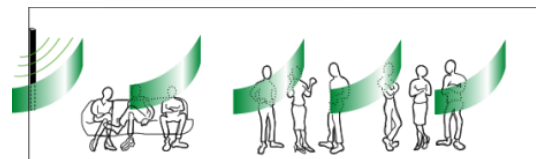

Speakers Acoustical column

-  **Inconspicuous : *unequalled* slenderness**
-  **Uniform sound field**
-  **High intelligibility**
-  **Easy and quick installation**

The **RC-3020** is a column-type sound speaker fitted with 5-cm low speakers distributed in « LINE ARRAY » architecture. It guarantees a uniform sound field for sitting as well as standing listeners, and optimizes pressure level decay, according to distance, 4dB(A) up to 6dB(A) : gain of 9 dB(A) at 13m compared with a traditional speaker.

It can thus be installed in wall or flush mounting without being inclined downwards.

Features

Loudspeaker	Ø 5 cm	latex
Powers		10W
Frequency band		300Hz – 11kHz
SPL	88dBA/1W/1m	98dBA/10W/1m
Directivity -6dB	4000Hz 120° x 50°	500Hz 235° x 50°
Dimensions		72 x 30 x 1405mm
Color	Black	RAL 9005
	Stone color	RAL 1013
Material		Metal
Weight		3Kg
