-  **Acoustic quality**
-  **High intelligibility**
-  **Multipurpose and inconspicuous**
-  **Easy and quick installation**

The **RC-906** is a metal « column » sound speaker. Higher power level has been emphasized while optimizing the directivity.

With **RC-906** you benefit from vertical column effect in order to better counteract intelligibility problems in reverberating premises.

Its mounting bracket, carefully studied by our engineers, is suitable in any situation. It ensures an easy and reliable installation (precise orientation) and allows quick and easy maintenance.
