

Made in  
France

-  **Excellent musical reproduction**
-  **Unique design**
-  **Moisture resistant- IP 32**
-  **Easy and quick installation**

The **RC-Compact-02** is an aluminium 40W speaker.

Its ellipsoid geometry, neatly studied by our engineers, enables to homogenize acoustic radiation and to reduce diffraction phenomena.

You therefore benefit from a large opening angle up to 4000 Hz. You then optimize the sound surface while minimizing the quantity of speakers.

With its unique design and its acoustical performances, it is adapted to all environments. Its ball-type fixing device facilitates its orientation and ensures simple and rapid installation.

### Features

<b>Powers</b>	Nominal 40W	40W
<b>Frequency band</b>		100Hz – 20kHz
<b>SPL</b>	89dBA/1W/1m	107dBA/40W/1m
<b>Directivity -6dB</b>		160° x 160°
<b>Dimensions</b>		139 x 160 x 280 mm
<b>Color</b>	Aluminium grey	RAL 9006
<b>Material</b>	Metal grid	Aluminium
<b>Weight</b>		3,4Kg

### Applications

Humid places..... 

Music..... 

Speech..... 

Meeting places

Bar rooms

Shops

Restaurants

Waiting rooms

Sports rooms /Gyms
