

# RP-2020-NW

## Speakers Sound projector

Made in France

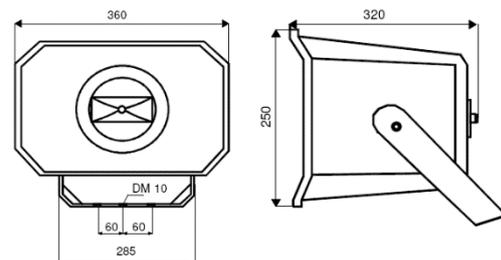

-  **Full IP + PoE+**
-  **High efficiency/ Wide Band**
-  **Protection degree IP 66**
-  **Harsh Environments**
-  **Easy installation**

The **RP-2020-NW** is a standalone network sound broadcaster..

With an embedded amplifier and a network module, it is a totally IP device, to play sound carried on a computer network. Its exponential projection technology combines broadcast range and intelligibility. We can add to a slave projector RP-2020 to expand

the Broadcasting coverage. Its waterproof connectors, and compatibility PoE+\* ensure easy and reliable installation. It is especially suitable for CCTV systems because it permits to connect an isolated point from the main sound system.

### Features

### Applications

|                     |   |                                |
|---------------------|---|--------------------------------|
| <b>SPL</b>          | 100 dBA (1W / 1m)   | 90Hz - 16kHz                   |
| <b>Microphone</b>   | Integrated  | 50Hz - 16kHz                   |
| <b>Audio</b>        | Class D Amplifier   | Multi Formats                  |
| <b>Network</b>      | RJ-45   | 10/100BASE-T                   |
|                     | IPv4/v6, HTTP, SIP, SMTP, SNMP, NTP, TCP, UDP, IGMP, ICMP, DHCP, ARP, ... | Bidirectional Streaming        |
| <b>Power supply</b> | PoE+<br>From Network node   | 1x20 W<br>2x12,5W with RP-2020 |
| <b>Dimensions</b>   | 360 x 250 x 320mm   |                                |
| <b>Colour</b>       | Light grey  | RAL 7035                       |
| <b>Material</b>     | IP 66   | ABS                            |
| <b>Weight</b>       | 5 Kg  |                                |
