

-  **Contemporary design**
-  **Superior acoustical quality**
-  **Compact enclosure**
-  **Easy and quick installation**

The **RX-B11** is a two bass-reflex channel enclosure-type speaker with a 13cm loudspeaker fitted with a boomer and a tweeter. Its clean line and microperforated grid draw a contemporary design most appreciated by architects.

Its fork fixing device guarantees an easy and quick wall mounting (*vertical or horizontal*).

Quality of this enclosure gives excellent acoustical performance, which enables to make high quality installations in places demanding particularly comfortable listening.
