

-  **Excellent musical reproduction**
-  **Unique design**
-  **Moisture resistant- IP 32**
-  **Easy and quick installation**

The **RC-Compact-02** is an aluminium 40W speaker. Its ellipsoid geometry, neatly studied by our engineers, enables to homogenize acoustic radiation and to reduce diffraction phenomena.

You therefore benefit from a large opening angle up to 4000 Hz. You then optimize the sound surface while minimizing the quantity of speakers. With its unique design and its acoustical performances, it is adapted to all environments. Its ball-type fixing device facilitates its orientation and ensures simple and rapid installation.

Features

Powers	Nominal 40W	40W
Frequency band		100Hz - 20kHz
SPL	89dBA/1W/1m	107dBA/40W/1m
Directivity -6dB		160° x 160°
Dimensions		139 x 160 x 280 mm
Color	Aluminium grey	RAL 9006
Material	Metal grid	Aluminium
Weight		3,4Kg

Applications

Humid places..... 

Music..... 

Speech..... 

 **Meeting places**

 **Bar rooms**

 **Shops**

 **Restaurants**

 **Waiting rooms**

 **Sports rooms /Gyms**
