

Key points

-  **Compact size**
-  **Excellent range (> 40m)**
-  **Jack 3.5mm audio output (universal)**
-  **Broadcast confidentiality (infrared signal)**

More details

This convenient pocket receiver allows reception of the signal from infrared transmitters (INF-EMET-180M2 / INF-EMET-900M2). Its power gives it a range of more than 40 meters from the transmitter.

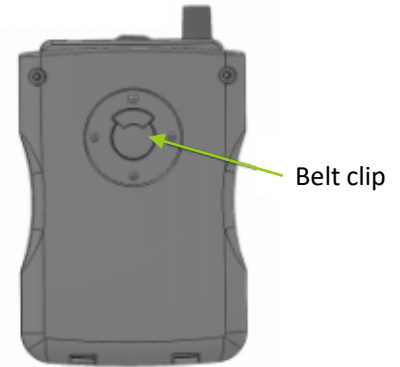

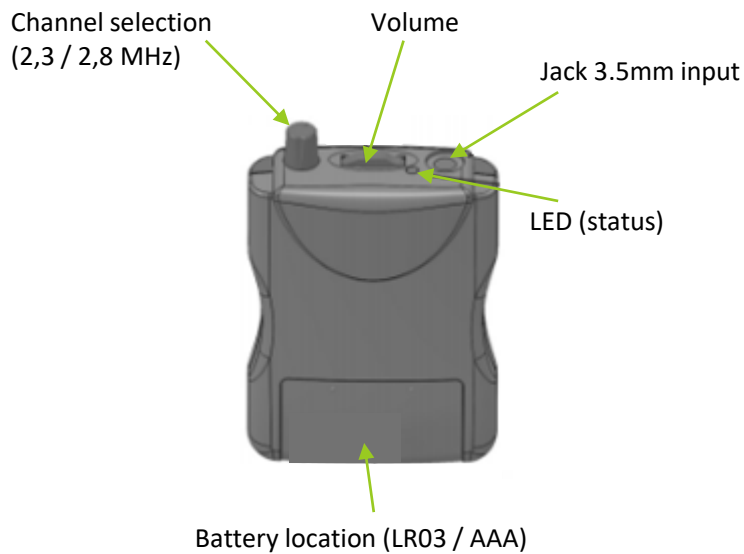

Its 3.5 mm jack audio output allows the connection of audio accessories such as headphones (INF-ECOUTEURS) or a magnetic collar (INF-COLLIER) for hearing impaired people.

5 slots charging station is also available in option (INF-CHARG-RECEPT).

FEATURES

Power supply	2 batteries 1.2V / 750 mAh (type LR03 – AAA)
Frequency response	15 – 20 000 Hz
THD	< 1%
