

RB-6502-B

Sound diffusers Ceiling loudspeaker

Key features

- Nominal power 20W
- Fast installation
- Water and dust resistant
- Made in France

More details

This ceiling loudspeaker (Ø 17,5cm / depth 14,5cm) offers a good reproduction of your voice messages and also of your background music.

It is composed of three parts: a speaker core, a dome cover and a removable grille.

The Turn'Play system and Push-wire® connection system allow for tool-free connection and fast installation, making installation and maintenance easier.
