Weatherproof and durable
IP66 level and aluminum body

Multipurpose
Controlled sound coverage +
adjustable orientation

Optimal audio quality
Made of 4 speakers (3") + 1 tweeter

Easy adjustable power
Accessible powertap

More information

This aluminum column is a 2 way system composed of 4 drivers (3") and one tweeter which guarantees an optimal sound quality for both background music and vocals (speech, singing...). Its metal body and its IP66 level allows it to be installed both indoor and outdoor. Its controlled sound coverage makes it the best fit for the hardest spaces to cover with a sound system.
