

PS-2601

Intercommunication Intercom remote station

- Remote station
- Vandal call button
- Watertight
- Noisy areas

The **PS-2601** is an intercommunication remote station.

It can be used either as standalone station or with call/answer function thanks to its vandal call button and integrated loudspeaker.

Its high efficiency ensures an excellent sound distribution, especially in noisy areas..

It is weather and shock-resistant and can therefore be used anywhere outdoors.

Its fixing device allows flush-mounting or wall-mounting.
