Water and dust resistant
IP55 protection

More details

This ceiling speaker certified EN54-24 (Ø 20 cm / depth 14,5 cm) offers a good reproduction of your safety messages and also of your background music.

It is composed of three parts: a speaker core, a dome cover and a removable grille.

The Turn'Play system and Push-wire® connection system allow for tool-free connection and fast installation, making installation and maintenance easier.
