

RB-6502

Loudspeakers Ceiling speakers

- 🌀 20 W - 100 Volts
- 🌀 Fast and easy mounting
- 🌀 No tools required
- 🌀 Colour customisation
- 🌀 Protection index IP 55

The **RB-6502** is a new generation of BOUYER speakers, composed of three parts : a speaker, a dome cover and a removable grill.

Its mounting mechanism which combines an innovative **Turn'Play** and a **Push-wire**[®] connection, enables a plugging without any tools and a very fast and easy fixing which facilitates installation and maintenance.

Modern and unobtrusive ceiling speaker which offers high acoustic characteristics. Thanks to its removable and customisable grill, it will fit all your public address needs and integrate in any interior environment.
